## ZIPWAKE ONLINE PRESENCE

Zipwake have chosen to expand the marketing activities by joining Offsite (Social Media) touch points, including monitoring tools, as a supplement to traditional marketing tools.

We are convinced that our presence on Facebook, LinkedIn, Instagram and YouTube will stimulate and speed up communication and increase the market presence for the Zipwake brand as well as increase networking activities over the borders.

We ask for your support in being active on these touch points and to spread the aspects of our message to increase the awareness of the Zipwake brand.
